

Congratulations to our Students of the Month for September 2017!

Pre-Kindergarten/Kindergarten: Kenneth Green (PreK)

Kenneth has shown tremendous growth in his participation in group activities. He also shows concern for his brother and the other children in his classroom when they are upset. Kenneth loves to help his friends and has made great strides in a short time.

Grade 1 -3: Kyle Muchiru (1st)

Kyle is a kind first grader, who is always looking out for his friends. He is the first to jump up and help someone in the class who needs help, and goes above and beyond to help his teachers. He takes pride in his academic work, and is always asking "What more can I do" instead of "Can I be done?" He is a kind friend to all St. Mary's students, and is truly a compassionate young learner.

Grade 4-6: Stephen McDonald (5th)

Stephen is new to our St. Mary's community and has positively contributed to his classroom so far this year. He is conscientious with his work, well behaved, and helpful in class. Stephen is always willing to accept a challenge and work hard to meet it!

Grade 7-8: Helena McDonald (7th)

Helena is already settling in well to St. Mary's. She is a good student in class who is always prepared, participates, and is always respectful. Her eagerness to learn can be seen by the fact that she is always reading a book or discussing a book with her friends, even during her down time!

Grade 9-10: Duncan O'Rourke (9th)

Duncan is very kind. He is someone who does not want to hurt anyone and tries to build up the people around him instead. Duncan is a hard worker and is settling well into St. Mary's. Every day, Duncan has at least one pertinent question or comment that adds to class discussion about a topic. He is a very conscientious student who is always prepared for class, participates in the class discussions, and has great ideas to add to the topics that are being discussed.

Grade 11-12: Paige Wright (12th)

Paige Wright works hard and uses her time wisely to get her work done. She is also very kind to the people around her and always comes to class with a smile. She has been doing well in physical science with her lab skills, and has been an asset to the volleyball team as well!
