Dear Families,

St. Mary's Schools do not have a school nurse. Having medical files in order is a requirement of the Diocese of Worcester but having a nurse is not a requirement. We do have a Health Office that is staffed by administrators or a designated adult when administrators are not available.

Prescription medication, with the Medication Administration Request Form filled out by the doctor, will be given by administrators or by a designated adult when needed. **Non-prescription medication**, such as Tylenol, stomach antacid etc., is not provided by the health office. Anyone wishing their child to have these medications, when needed, should fill out the Non-Prescription Medication Release Form and send it in with the medication of choice which will be stored in a locked area in the health office with the release form.

Minor injuries will be taken care of in the Health Office with a phone call to a parent or a note to be sent home with the child letting parents know what happened and what was done. If the injury is more severe, we will administer basic first aid and call a parent or a person on the emergency card to pick up the child for further treatment. The parents will always be the first ones we will try to reach.

If the injury is life threatening, 911 will be called immediately and then parents will be called to meet the ambulance at the school or at the hospital if a parent has to travel any distance.

Please sign on the space below and return this signed paper to your child's teacher as proof that you have read and understand the medical procedure at St. Mary's Schools.

If there are any nurses who are interested in volunteering in the Health Office, please give Mrs. Ahearn a call at 508-753-1170 ext. 12.

I have read and understand the medical/first aid procedures at St. Mary's Schools.

Student name _____

Parent signature _____
